

Accelerating SATCOM Resilience by Shifting Infrastructure from the Ground to the Cloud

Gilat Defense Advances Secure, Agile and Interoperable Communications Through Digitization and Cloud-Native Virtualization

Virtual Modem Reference Architecture

Digitize

Capture, Process,
and Transport Signals
with DIFI Compliance

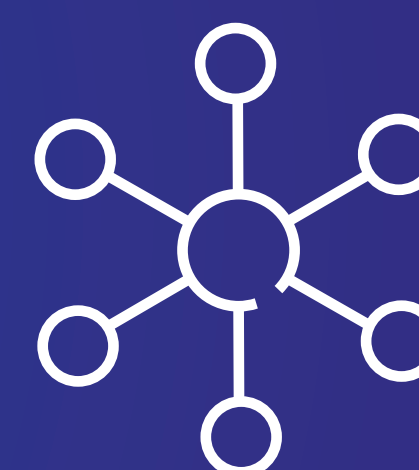

Virtualize

Deploy and Scale
Services On-Demand
in the Cloud

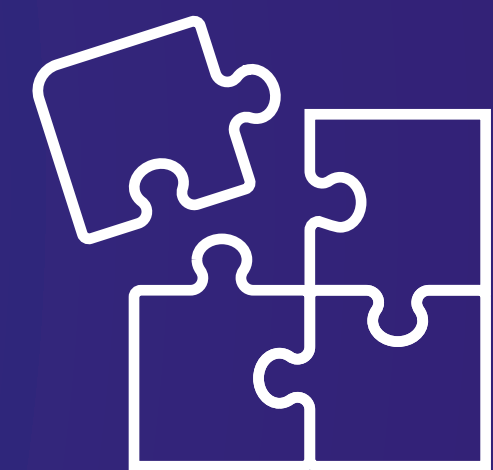

Secure

Built-In Security
From Edge to
Cloud

Interoperable

Open Standards.
Seamless Integration.
Stronger Together

Agile

Adapt Faster.
Operate Smarter.
Lead the Mission.

Together We Are Building the Future of Resilient, Intelligent and Interoperable
Satellite Communications
